Yiming (Emmett) Peng

EDUCATION

• University of Toronto, Dalla Lana School of Public Health

Sept 2024 – *Aug* 2026 (*Expected*)

Master of Science in Biostatistics- Data Science and Artificial Intelligence Option; GPA: 4.00/4.00

Thesis: Bayesian Latent Class Models for Estimating the Causal Effects on Multiple Cognitive Trajectories in Aging Populations

Supervised by Dr. Kuan Liu and Dr. Zihang Lu

· Beijing Institute of Technology, Zhuhai

Sept 2020 - Jun 2024

Bachelor of Science in Applied Statistics; GPA: 3.96/4.00 (WES)

Thesis: Deep Learning and Stochastic Modeling of Human Activity Patterns through Smartwatch Sensors for Health Interventions (*Honored as Outstanding Thesis*)

Supervised by Dr. Han C.W. Hsiao

PUBLICATIONS AND PRESENTATIONS

C=CONFERENCE, S=IN SUBMISSION, W=WORKING PAPERS

- [C] Yiming (Emmett) Peng, Victoria Truong, Aoqi Xie, Yu Shi, Pingzhao Hu (2025) Enhancing Breast Cancer Treatment Response Prediction with Single-Cell RNA Sequencing and Large Language Models. 2025 Statistical Society of Canada (SSC) Annual Meeting, p58. May 25 28, Saskatoon, Saskatchewan, Canada. [Slides]

- [W] Jiahui Zhang, Yu Shi, Aoqi Xie, Yiming (Emmett) Peng, Pingzhao Hu (2025) Predicting New-Onset Atrial Fibrillation with Competing Risks Using an Uncertainty-Calibrated Interpretable Tabular Transformer: Evidence from the Cardiovascular Imaging Registry of Calgary (CIROC).

PROFESSIONAL EXPERIENCE

• Knight Lab, The Hospital for Sick Children

Jun 2025 - Present

Clinical Research Project Assistant, supervised by Dr. Andrea Knight

Toronto, Canada

- Implement causal inference methods in R to investigate socioeconomic and mental health outcomes in childhood-onset systemic lupus erythematosus (cSLE).
- Collaborate on designing the causal framework and lead statistical analyses, including data pre-processing, data imputation, and modeling.
- Provide statistical consulting for interdisciplinary teams and contribute to manuscript drafting for publication.

• The Hospital for Sick Children

Iun 2025 - Present

Research Volunteer, supervised by Dr. Amanda Ricciuto and Dr. Anne Griffiths

Toronto, Canada

- Implement latent class mixed models in R to analyze longitudinal serum biomarker trajectories in primary sclerosing cholangitis (PSC) patients.
- Implement survival analysis incorporating latent class membership, showing its statistical and clinical significance in predicting transplant outcomes alongside other covariates.
- Collaborate with clinicians and biostatisticians to interpret findings and contribute to manuscript preparation.

• Hu Lab, Dalla Lana School of Public Health, University of Toronto

Oct 2024 - Jun 2025

Data Science Research Student, supervised by Dr. Pingzhao Hu

Toronto, Canada

- Developed an integrated multi-stage pipeline in Python combining single-cell RNA-seq data with embeddings from large language models (LLMs) and foundation models to identify cell type-specific biomarkers for breast cancer treatment response.
- Implemented supervised classification using cell-type-specific biomarkers and cluster-specific bulk gene-expression profiles to predict treatment response, achieving improved predictive performance over baseline methods.
- Drafted manuscripts and presentations for conferences and peer-reviewed journals.

• CITIC Securities Company Limited

Aug 2023 - Sep 2023 Zhengzhou, China

Summer Internship

- Engaged in hands-on learning about investment, financing, and capital intermediary practices.
- Assisted experienced customers in formulating shareholding reduction strategies.

HONORS AND AWARDS

• Winner – Case Studies in Data Analysis Competition, SSC 2025

May 2025

Statistical Society of Canada (SSC)

- Ranked 1st out of 16 teams in the 2025 SSC Case Study Competition (Case Study #1): Prediction of New Onset Atrial Fibrillation Using Routinely Reported 12-Lead ECG Variables and Electronic Health Data.
- Poster Title: Uncertainty-Calibrated Interpretable Tabular Transformer Model for Atrial Fibrillation Prediction with Competing Risk.
- Team: Jiahui Zhang, Yu Shi, Aoqi Xie, and Yiming (Emmett) Peng. Mentor: Dr. Pingzhao Hu. Award valued at \$2,500 CAD per team.

• CSSC 2025 Travel Award

May 2025

Canadian Statistics Student Conference (CSSC), sponsored by CANSSI

 Awarded to select student presenters at CSSC 2025 for academic excellence and research contributions. Sponsored by CANSSI and valued at up to \$150 CAD for travel support.

• BITZH President's Scholarship

May 2023

Beijing Institute of Technology, Zhuhai

• Awarded to 112 students in the Beijing Institute of Technology, Zhuhai for outstanding performance across all areas of academic and extracurricular achievement. Valued at \$2,000 CAD.

College Dean's Honor Scholarship

2021 - 2024

Beijing Institute of Technology, Zhuhai

• 3x recipient (2021-24). Awarded to the top 10% of students in the department. Valued at \$1,000, \$2,000, and \$4,000 CAD, respectively.

• BITZH Freshman Entrance Scholarship and Continuing Scholarship

2020 - 2024

Beijing Institute of Technology, Zhuhai

• 4x recipient (2020-24). Awarded to the top 10% of students in the program based on outstanding performance in the National College Entrance Examination and continued academic excellence. Valued at \$4,800 CAD per year.

BITZH Outstanding Student Scholarship

2020 - 2024

Beijing Institute of Technology, Zhuhai

• 8x recipient (each semester from 2020 to 2024). Awarded to the top 10% of students in each major.

SKILLS

- **Programming Languages:** R, Python, MATLAB, C++
- Tools & Technologies: Git, LaTeX, RMarkdown, Jupyter Notebook, Eviews, Maple, Mathematica, SQL, Excel
- Statistics Concepts: Causal Inference, Latent Class Analysis, Survival Analysis, Longitudinal Data
- Machine Learning Models: Transformers, RNNs, Regression (GLM, Penalization), CNNs, Neural Networks
- Languages: Native proficiency in Chinese; professional working proficiency in English

COMMUNITY INVOLVEMENT AND LEADERSHIP EXPERIENCE

Biostatistics Union of Graduate Students (BUGS)

Sep 2024 - Present

PHSA MSc Representative and Seminar Committee member

[🗘]

Sep 2024 - Present

Health Data Working Group

Sep 2025 - Present

Student Member

• Public Health Students' Association, University of Toronto

Biostatistics MSc Representative

• Student Union, College of Global Talent, Beijing Institute of Technology, Zhuhai Officer

Sep 2020 – Jun 2022
